talking nano PUPPY

INSTRUCTIONS

www. playmatestoys. com

The object is to take care of your Talking Nano Puppy just like you would a real puppy. If you take good care of your Talking Nano Puppy, it will grow up to be happy. If you neglect your Talking Nano Puppy, your puppy will grow up to be very unhappy. It takes approximately 10 days to play with your Talking Nano Puppy. Good luck!

The Talking Nano Puppy Growth Chart:

Days 1 - 3 = Infant
Days 4 - 7 = Toddler
Days 8 - 10 = Pre-Teen

Remember one day of our time is one whole year to your Talking Nano Puppy. Every day you take good care of your Talking Nano Puppy, it gets a year older. After three days (or three years for your Talking Nano Puppy), you'll hear a happy birthday song - that means your Talking Nano Puppy has just become a Toddler. After seven days, you'll hear the birthday song again, and your Talking Nano Puppy becomes a Pre-Teen.

What your Talking Nano Puppy says depends upon what it needs and how old it is.
